SOFT ITALIAN STYLE BREAD POCKETS

This new product is taking the food service industry by storm. An Italian style soft bread pocket that has been specifically developed for the modern market, the **Tasca** is supplied frozen and defrosts perfectly, allowing for easy splitting and filling, saving time and delivering a delicious alternative to paninis and baguettes that can be grilled, baked or served fresh.

The **Tasca** retains its characteristic softness after defrosting and grilling or baking does not degrade the texture of the product in any way. They are supplied frozen in packs of 24 units per case and can be stored wrapped in a fridge for up to 4 days.
